Welcome to Lake Idro!*

# Holiday at Lake Idro

Lake Idro (Lago d'Idro) is situated in a wide valley of steep mountains and lies at an altitude of 370 meters above sea level in the Sabbia Valley. The River Chiese, which springs from the mountains of Adamello to the north, continuously fills the Lake (even in high season) with fresh and clear water.

Consequently, Lake Idro is an ideal location not only for windsurfing and sailing, but also as an area in which to play and swim - which is an exhilarating experience in itself!

The water temperature in the summer season is usually around 23-24 °C, which is ideal for a refreshing dip during the hot weather.

Lake Idro measures 11 km long and 2 km wide and is located in the Lombardy province - north of the city of Brescia - and is about 35 km west of its very famous neighbour Lake Garda. It is surrounded by beautiful medium to high mountains and easily reachable within a day from the south of Germany - over the Brenner Pass, or through Switzerland.

Our leased cottages and apartments are constructed using the natural stone of the region and are located in the municipality of Idro - in the villages of Vesta (in the north east), in Crone (in the south east) and the 4-star AZUR Sportcamping Rio Vantone.

This campsite has been in existence for over 40 years and has been recently modernised to a high standard.

From Idro, you can easily make day trips to Salò, Desenzano and Sirmione at Lake Garda, or to Milan, Bergamo, Brescia, Verona and Venice.

The climate in the area is very mild. This means that the weather from Spring to late Autumn is warm and in the Summer the days are mostly hot and sunny.

In the surrounding hills and mountains, nature lovers will find many romantic trails. There are also more challenging steep mountain paths available for the more adventurous (in Dolomiti di Brenta or Adamello area).

In the last few years, a wide variety of different and more extreme sports have been developed - in addition to the better known sporting activities. An example of this would be Kids Canyon in Casto - which is a very stimulating experience (day trips to which are organised via the Rio Vantone campsite - under expert supervision).

There are also dedicated climbing areas in Crone and Vesta which are ideal places in which children and adults can learn to climb.

There are many places to learn and practice activities such as paragliding, windsurfing and canyoning (while travelling on beautiful rivers and passing through an area with wild horses).

In short, Lake Idro offers everything for an adventurous vacation.

Between Vesta and Crone is our 4-star Riviera Campsite Rio Vantone, where we offer both you and your children a variety of entertainment. We have our own surf school, a children's entertainment program in high season, a swimming pool with a pool for toddlers and a cosy terrace restaurant and bar. There is also an ice cream parlour, supermarket and snack bar available on site.

## Lake Idro. Pure outdoor adventure - in the water or in the mountains.

Sports enthusiasts and adventurers are offered many possibilities to entertain themselves - climbing a mountain for example.

We recommend a family walk or even a thrilling mountain tour - whilst clambering over the rocks. After arriving at the top, there is almost always a wonderful Trattoria or Refugio, where your taste buds will be pampered and you can rest your tired body for a while.

We organize guided tours on request that both you and your children will enjoy.

A highlight is the Kid's Canyon in Casto, or the (adult) canyoning tour in Palvice. Watersports are a big priority here and we have an ample supply of them.

You can lie back sunbathing on the beach, or you can go surfing, sailing, canoeing, rent a motor or sail boat, enjoy a boat ride, or even fly over the water while kiting!

**Surf school "Leo"**, which has been located on AZUR Sportcamping Rio Vantone for over 25 years, provides both high quality modern equipment and of course a very good vibe.

cliff jumping

**Hikes and mountain tours** around Lake Idro, in the beautiful Val di Daone or in the region around the Adamello glacier are organised regularly.

With our hiking maps, it is always possible to make a daytrip or hike with family or friends in the vicinity of Lake Idro

The climbing wall in Crone takes you to a height of 400 metres. In Vesta the climbing wall takes you 3000 metres horizontally along the lake.

The **climbing walls** around Lake Idro are only a few minutes away. For 3000m horizontally on the Via Ferrata Sasse in Vesta, or 400 m higher on the Via Ferrata Crench in Crone, the opportunities are huge and with Lake Idro, right beneath you, it is a wonderful outdoor experience.

Climbing opportunities in the vicinity also offer hang bridges, slides, waterfalls and many other attractions. Climbing gear is for hire at the reception of Azur Camping Rio Vantone.

**Experienced climbers** will also be in their element. More than 40 climbing walls of various degrees are waiting here for you. When that is still not enough, a one-hour drive north is the climbing Eldorado Arco, of the Brenta-Dolomites.
